

Australian Carbon Society

ACS Student Conference 2018

6 – 7 December, Sydney, Australia

www.australiancarbonsociety.org

Call for Abstracts

Abstract Due: 28 Sep 2018

The Australian Carbon Society (ACS) is a collection of all those people who are interested in carbon materials and carbon nanomaterials: their design, synthesis, characterisation, modelling and exploitation, including the technology involved in that exploitation.

ACS Student Conference offers a great chance for postgraduate, undergraduate and early-career researchers working on carbon materials to learn new knowledge from leading experts, showcase your research activities, and develop your career skills, get personalised feedbacks and socialise with fellow students and friends.

This year's conference theme is "Diversity of Carbon Materials", co-organised by ACS and Carbon Division of the Royal Australian Chemical Institute. The local host is The University of Sydney. The conference features (1) student oral and poster presentations, (2) tutorial talks by invited speakers, (3) career development sharing session with ARC DECRA and Future fellows, (4) publication discussion session with journal editors, (5) academic job interview discussion session with senior academic leaders, and (6) BBQ dinner interaction session. We are seeking presentations that explore this theme in interesting, insightful and creative ways. We are inviting you to consider the ways in which your research can make a difference both in the academic arena and beyond.

Prof Yuan Chen, ACS Chair

Invited speakers

Alister Page The University of Newcastle
Dan Li The University of Melbourne
Dusan Losic The University of Adelaide
Igor Ahronovich University of Technology Sydney
Irene Suarez-Martinez Curtin University
Joe Shapter The University of Queensland
Seeram Ramakrishna National University of Singapore
Shaobin Wang Curtin University
Xiwang Zhang Monash University
Zaiping Guo University of Wollongong

Abstract Submission

Submit your abstract in the word template to Conference Secretary (Mr. Junsheng Chen, jche2284@uni.Sydney.edu.au).

Decision on the acceptance of your abstract will be made within 1 week of the abstract submission.

Registration

Registration deadline: **16 October 2018**

Registration fee: **A\$120** (including attendance to the conference, 4 coffee breaks, 2 lunches, and 1 BBQ dinner on 6 Dec 2018)

Local Host: School of Chemical and Biomolecular Engineering, The University of Sydney, Australia
