Royal Australian Chemical Institute

Inaugural RACI Carbon Division Conference

Carbon Innovation Conference 2019

Monday 8 July, Advanced Manufacturing and Design Centre, Swinburne Hawthorn

#Carbon19

Confirmed Speakers

Prof Gordon Wallace
University of Wollongong

Prof Sandra Kentish
University of Melbourne

Prof Yuan Chen
University of Sydney

Prof Bronwyn Fox
Swinburne University of
Technology

Prof Joe Shapter
University of Queensland

Prof Ajayan Vinu
University of Newcastle

Dr Shaun Smith
CSIRO Manufacturing

Dr David McManus
Australian Carbon Innovation

Prof Namita Choudhary
RMIT University

Prof Michelle Glee
RMIT University

About the Conference

The Carbon Division of RACI is holding its inaugural CARBON INNOVATION CONFERENCE with the key theme "Carbon Allotropes – Challenges and Opportunities". This one-day conference will showcase cutting edge research, development and demonstration of a wide range of carbon materials, and structural and functional materials containing carbon.

Visit the conference page for registration and more details:

Abstract Submission and Poster Prizes

The CIC 2019 is currently accepting poster abstracts.

A strong focus of this workshop is highlighting young researchers through the best poster prizes.

We encourage all ECR and PhD students to nominate for the Carbon Innovation Conference prize by presenting your posters at the conference.

The abstract submission will close on 20 June 2019.
